JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

*Conditions in Naples.*—According to official reports there have been no new cases and no deaths in the city of Naples for the last thirteen days.

Vessels are resuming their schedules, and for the next few weeks the rush of emigration may be expected to be heavy, in order to make up for the congestion which has resulted from the condition of affairs at this port.

Doctor Geddings further reported:

During the week ended November 23 no cases of nor deaths from cholera were reported in Naples. In other localities of Italy there were reported 44 cases with 5 deaths.

#### NAPLES—Examination of Emigrants.

Doctor Geddings reports:

*Vessels inspected at Naples and Palermo week ended November 5.*
